ULTRA-EFFICIENT DRYER

VENTURI NOZZLE

Specialy designed for fine hair and sensitive scalp.
Replicate the power of ventury, yet gently
distribute the air flow to protect hair.
Same power, more gently.

2 PROFESSIONAL NOZZLE

with magnetic coupling and mechanical lock.
Doble-Layer heat protect for easy and handling

63,5 mm
2.5 in

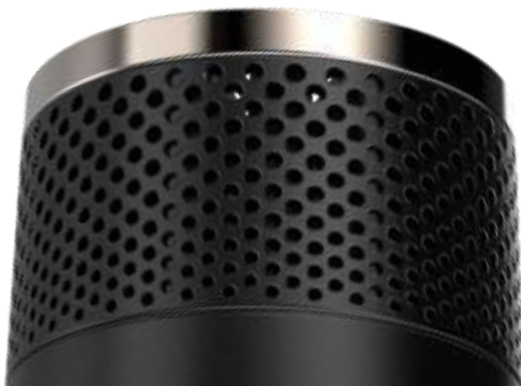

DEEP DIFUSSER

Diffuses warm air over large areas, avoiding damage to the hair
cuticle. Protects curly hair from frizz and is designed to handle
voluminous hair.

COLD NOZZLE

MICROPERFORATED FILTER

Made to prevent dirt from entering the motor and hair. Its magnetized system facilitates cleaning and maintenance.

PROFESSIONAL MESH FILTER

Specially created to trap even the smallest environmental particles. Protects hair from dirt and ensures longer motor life.

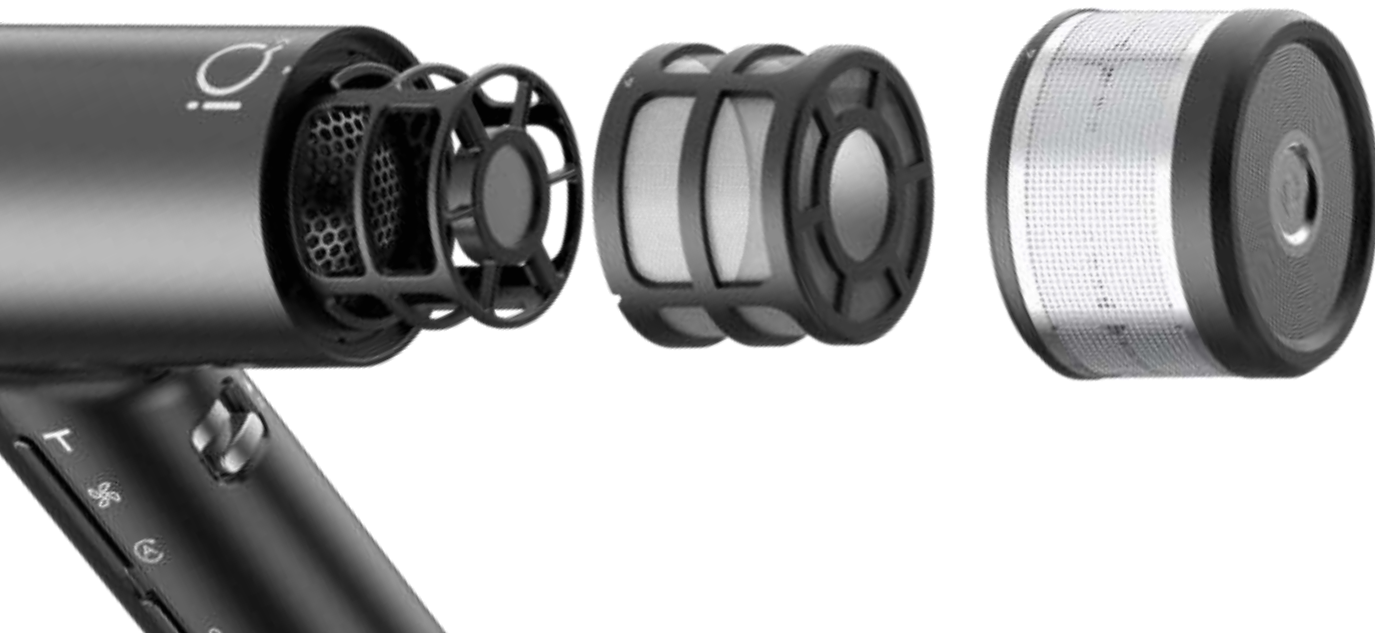

AUTO-CLEAN

Reminder

- At start, the air will blow at full speed for 3s and will stop.
- The air will then start to circulate in the opposite direction to remove dirt from the filter for 10s and will stop.
- Once finished, if you want another cycle you can activate it 30s later.

During this time keep both the outlet and the air inlet, clear of obstructions and away from any surface. To cancel the self-cleaning cycle, turn off the dryer.

gama.professional

STANDBY
FUNCTION

iQ2 automatically turns to stand-by mode when you place it on the Smart Pad. Designed to make work easier and more efficient.

TURBO - 120.000rpm

Increases flow for about 30 seconds.

The dryer has the TURBO function that powers the air flow, taking the engine to a super speed of 120,000rpm for 30 seconds.

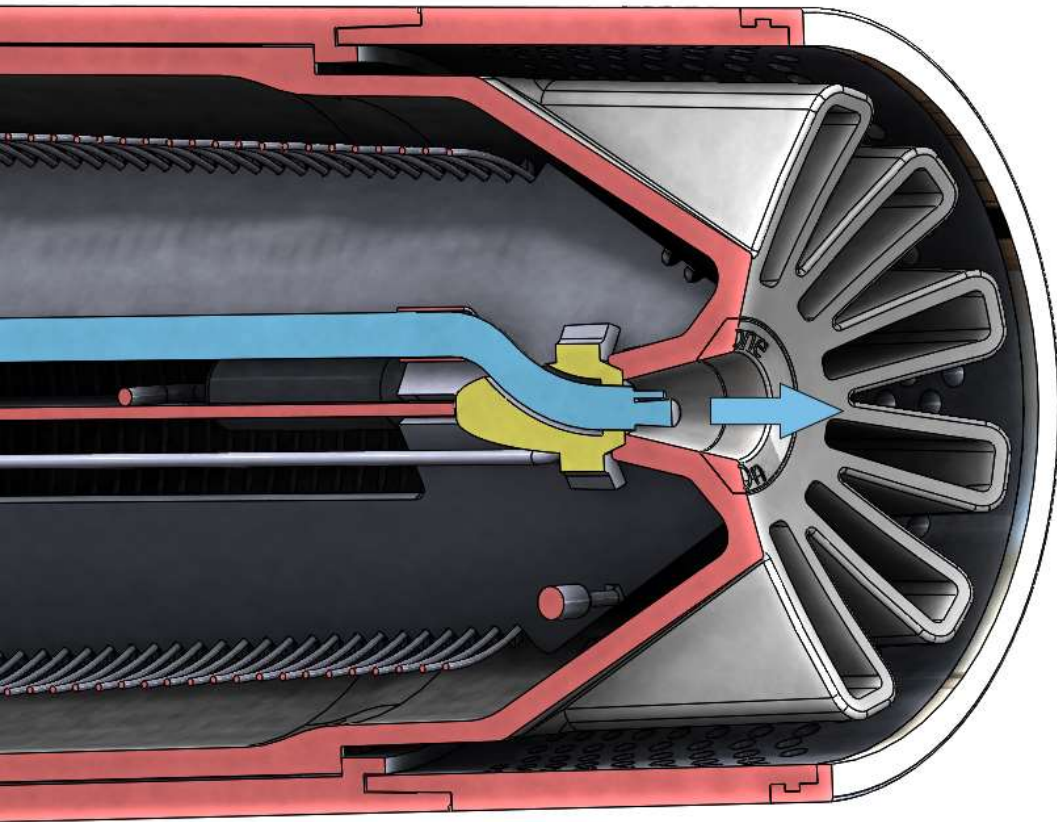

BRUSHING Position

The iQ dryer, for its performance of flow rate and air pressure, has a recommended brushing position to protect the quality of the hair and optimize the operation of the dryer. The indicated brushing position is 2° temperature level. In very -fine hair also recommended 1° temperature level.

Oxy-Active technology

It emits Active Oxygen that acts like a POWERFUL ANTI-BACTERIAL to protect the scalp while also allowing a better color fixation or COLOR LOCK effect.
